DRIVEWAY PERMITS

Residential homeowners may pull permits – they are solely responsible for all work done. A City License is required for Contractors pulling permits.

There shall be only one (1) driveway entrance per single-family lot in an area zoned R-1.

A permit is required if the driveway is enlarged and/or materials being used are changed (i.e., gravel to asphalt/concrete, asphalt to concrete).

No permit is required if the size of the driveway and materials used remains the same.

Homeowner/Contractor must complete permit application and submit a site plan/drawing of planned work (including measurements of proposed driveway and distance from adjoining properties).

The following is required when making a curb or street cut:

   Curb Cut - $1,000 bond per curb cut, good for 2 years.
   Street Cut - $5,000 bond per street cut, good for 2 years.

Maximum opening per driveway is 24 feet  See Ordinance 74-259 h(7).
